Professional Summary

Senior Full Stack WordPress Developer with 10+ years of experience building and shipping production websites for clients in the US, UK and Pakistan across e-commerce, trading/fintech, real estate and service industries. Strong in both front end (HTML5, CSS3/SASS, JavaScript ES6+, jQuery, Bootstrap) and back end (PHP 7/8, MySQL, WordPress core APIs). Specialised in custom plugin development, theme and multilingual theme development, MVC-based WordPress (Timber), REST API integration and performance optimisation, with a track record of turning design files into clean, standards-compliant, mobile-first websites. Open to remote roles worldwide.

Core Skills

Front End: HTML5, CSS3, SASS, Bootstrap 3/4/5, JavaScript (ES5, ES6+), jQuery, responsive and mobile-first design, cross-browser compatibility

Back End: PHP 7/8, MySQL, WordPress Plugin API (hooks, filters, shortcodes), Custom Post Types, REST API (consuming and building endpoints), OpenCart

WordPress: Custom theme development, multilingual themes, Elementor custom widgets, custom widgets, Redux theme options, Timber/Twig (MVC), WooCommerce customisation, site optimisation

Tools & Workflow: Git, Bitbucket, Chrome/Firefox DevTools, WordPress coding standards, reusable code libraries

Languages: English (very good), Urdu, Punjabi, Saraiki (native/excellent)

Professional Experience

Full Stack WordPress & Plugin Developer (MVC) - PropertyGRID, United States

Sep 2024 - Present · propertygrid.com

- Led development of a property ownership platform on WordPress using an MVC architecture (Timber), building custom features that improved data handling efficiency by 25%.
- Built API integrations and customised plugins to improve the user experience for a US-based client.

Tech: PHP, WordPress, Timber/Twig (MVC), MySQL, REST APIs, JavaScript, Git

Full Stack WordPress & Plugin Developer - Yodo Club Design, Lahore

May 2023 - Aug 2024

- Delivered service-based custom WordPress projects for local and international clients, including theardcity.com, gmevents.info and translinguist.com; also delivered website work for thatgirlclub.com and pathsolutions.com.
- Designed and built custom plugins: Security Headers, Email Verification, Google reCAPTCHA, Stock Notifier, Woo Popup, and framework plugins (TGC-Framework, TGC-SQS-Products, TGC-SWM, Translinguist-Framework, Synkraft Main Plugin).
- Implemented certificate generation and social sharing features, including LinkedIn integration.
- Optimised client sites for speed, reaching Google PageSpeed (desktop) scores of 80-86, including translinguist.com (86) and theardcity.com (80).

Tech: PHP, WordPress Plugin API, WooCommerce, JavaScript, jQuery, MySQL, Git

Full Stack WordPress Developer (REST API) - Napollo Software Design, Lahore

Dec 2022 - Apr 2023

- Developed websites for trading and funded-trader platforms, including TX3 Funding.
- Fetched and displayed live records from external REST APIs.

Tech: WordPress, PHP, REST API, JavaScript, MySQL, HTML5, CSS3

Full Stack WordPress Developer - Glixen Technologies, Lahore

Apr 2019 - Nov 2022

- Converted design assets into component-based HTML, CSS and JavaScript; built responsive, mobile-first sites that met coding standards and cross-browser requirements.
- Developed custom WordPress themes and integrated third-party plugins; worked on directory, marketplace, classifieds and job-board themes (including FoodOTA, MaxWheels and Nokri).

- Took projects from concept, site architecture and wireframes through to final delivery, working directly with clients on specifications.
- Optimised full WordPress sites for speed, reaching Google PageSpeed (desktop) scores of 80-86 on directory and listing sites (jobs.nokriwp.com, downtown-directory.com, listing.maxwheelswp.com), and built reusable code libraries that shortened the development cycle.
- Used WordPress core knowledge to extend admin and theme components.

Tech: WordPress, PHP, MySQL, HTML5, CSS3/SASS, JavaScript, jQuery, Bootstrap, Elementor, Git, Bitbucket

Senior Full Stack Developer - An Open Cart Expert, London (UK)

Jan 2018 - Mar 2019

- Developed and debugged e-commerce websites on OpenCart for a UK-based company (e.g., orlandoattractions.com/tickets and peersol.com).
- Reviewed code, fixed bugs, and analysed existing implementations to plan improvements.
- Mentored junior developers and delivered training sessions.

Tech: OpenCart, PHP, MySQL, HTML5, CSS3, JavaScript, jQuery

Senior Front End Developer - Rganix-IT, Rawalpindi

Feb 2015 - Jan 2018

- Converted PSD designs into simple and responsive HTML pages and mobile-friendly websites.
- Built hybrid mobile apps using PhoneGap and Cordova.

Tech: HTML5, CSS3, JavaScript, Bootstrap, PhoneGap, Cordova, responsive design

Selected Projects

- **PropertyGRID** - property ownership platform (WordPress + Timber MVC)
- **Translinguist** - multilingual platform with custom framework plugin (translinguist.com)
- **ARD City** - real estate website for a large riverfront development (theardcity.com)
- **FoodOTA, MaxWheels, Nokri** - food marketplace, car listing and job-board themes (marketplace.foodotawp.com, listing.maxwheelswp.com, jobs.nokriwp.com)

Education

Bachelor of Science in Information Technology (BSIT) - University of Education, Lahore · 2010 - 2014
